

The rotary telescopic loader MANITOU MRT-X 2550 Privilege Plus

The rotary telescopic loader **MANITOU MRT-X 2550 Privilege Plus** allows you to work with loads weighing up to **4999 kg** at a height of up to **25 meters**.

The **4-piece boom**, combined with **360°** turret rotation, makes it possible to carry out various operations without wasting time on moving the machine.

The lift has a high cross-country ability. **4 drive wheels** and leveling mechanism make it easy to move over rough terrain.
